Subject: Updates to Stormwater Guidance
Date: 10/27/2010 02:54 PM

The message below will be going out to our Portland Harbor email list – but wanted to make sure you got it.

The big news in this announcement is that my data charts are finally available for the world to see (new Appendix E in the guidance). A dozen different analytes for both water and CB sediment. Yay!

Gerald – please send this out to the Portland Harbor group on gov.doc. Thanks!

Subject: Updates to Portland Harbor Stormwater Guidance

DEQ has updated its “Guidance for Evaluating the Stormwater Pathway at Upland Sites” to clarify certain policies/procedures and to add a new tool for evaluating stormwater data (Appendix E).

- In the guidance document, the majority of revisions were made in Sections 1, 5.1., 5.2 and 6.
- The existing appendices were updated to include a reference to the new Appendix E.

The guidance is available on DEQ's website at: <http://www.deq.state.or.us/lq/cu/stmwtrguidance.htm>

Additionally, DEQ released an update/status report on stormwater source control activities in September 2010. That report is available on DEQ's website at:

<http://www.deq.state.or.us/lq/cu/nwr/PortlandHarbor/docs/StormwaterSourceControlStatusRpt-Sept2010.pdf>

<http://www.deq.state.or.us/lq/cu/nwr/PortlandHarbor/docs/Figure1-StatusStormwaterEvaluations.pdf>

If you have questions regarding these documents, please contact:

Karen Tarnow, Portland Harbor Stormwater Coordinator
